VINEYARD HOTEL 8:30-13:00

CPD ACCREDITED

For Further Information

Dr. Anthony Smith 0824684569 ant_tony@mweb.co.za
Sasha Western Cape is excited to be organizing a programme of Sexual Health Master-class talks on 4th November 2017. After our very successful Master-class day of 2016, we will continue to bring to clinicians high quality, salient education representing important topics in contemporary sexual health.

Last year we covered many of the essential topics central to the knowledge base required to help our patients with sexual health problems. In 2017, we will revisit some of the important core topics, but will extend our remit to provide more specialised and niched information less accessible to the general clinician.

We will include an update on Male Sexual health, including the most recent research and information on erectile dysfunction and premature ejaculation, but beyond that are very excited to present experts addressing the subjects of ‘ChemSex’ and Transgender Health.

The talk on Chemsex will cover the emerging health problem posed by a convergence of new unique trends, including the presence of hookup apps and novel recreational drugs/chemicals and how they are used within sexual contexts.

The talks on Transgender Health will address the physical and psychosocial dimensions, as well as health challenges faced by transgender individuals, with particular attention to developmental issues.

We aim not only to bring you important educational tools, but also to stimulate debate, sensitize practitioners to important issues and to act as a forum for dialogue and networking amongst those interested in the field.

We take pleasure in inviting you to join us for this exciting event.

Dr. Anthony Smith
Jillian Butterworth
The Programme

1. An Update on Male Sexual Health
(What’s new in Erectile Dysfunction and Premature Ejaculation.)

Dr. Anthony Smith

List of Speakers

Ronald Addinall
Ronald Addinall is a clinical Social worker, and lecturer at the department of social development at the University of Cape Town. He is convener of the Postgraduate Clinical Social Work Programme and teaches in a wide variety of areas, including Systems theory, Substance Abuse, Family and Couples therapy and Psychodynamic therapy. He is a professional consultant for Genderdynamix, a non-profit Organisation servicing the specialized needs of the Transgender community and is a respected expert in the area of Human sexuality, with extensive experience as an educator, both through the popular media, and in education and training workshops he has run for health care professionals.

Dr. Anthony Smith
Dr. Anthony Smith is a general practitioner in private practice in Sea Point, Cape Town. Dr. Smith obtained his undergraduate degree and completed his MFamMed (Masters degree in Family Medicine) at the University of Cape Town. He holds a Masters degree in Medical Anthropology from University College London, (UCL) was trained in Sexual Health by the European Society of Sexual Medicine (ESSM) and is a Fellow of the European Committee of Sexual Medicine (FECSM). Other commitments include teaching in the Department of Family medicine. (UCT) He is on the executive board of the Southern African Sexual Health Association and deputy chair of SASHA Western Cape.
Dr Kevin Stoloff

Dr. Kevin Stoloff obtained his undergraduate degree at the University of Cape Town, and works in private practice in Claremont in the field of General Adult Psychiatry. In addition to spending much of his time treating anxiety and mood disorders, he has a special interest in HIV mental health, as well as in the domain of the mental health of Men Who Have Sex with Men (MSM).

Dr Simon Pickstone-Taylor

Simon Pickstone-Taylor is a General Adult Psychiatrist and Child & Adolescent Psychiatrist who did his undergraduate medical degree at Cambridge and completed his studies at UCT. He specialized in the USA and completed a fellowship in Child & Adolescent psychiatry at the University of California San Francisco, worked for the NHS in the UK and then returned to the Boland 7 years ago. Simon works with inmates for the department of correctional services, and does part time private practice at the NeuroDiversity Centre in the Boland, a multi-disciplinary mental health team specializing in Autistic Spectrum Disorders. He started the Gender Identity Development Service within Red Cross Hospital/UCT’s Division of Child & Adolescent Psychiatry, where he provides support for young people and their families, and is an honorary Senior Lecturer in the Division of Child & Adolescent Psychiatry at UCT.
